#### **Economic Highlights**

From the 9th communiqué, it is seen that Jamaica has met the two critical The EPOC's comments seem to be Fourthly, the bureaucracy that intercats quantitative targets for the IMF programme for the third quarter.

For the period ending December 2013, the primary balance was noted to be \$61.7 billion, marginally above the targeted \$61.6B. In addition, the Net International Reserves (NIR) was US\$1,056.7 million; significantly above the targeted US\$836.7 million. For the April to December period, although the tax revenue exceeded the IMF target by approximately \$10.0 billion, the collection of taxes What this reminds us of is that while If we are able to fix these focal points of continued to lag the budgeted forecast of \$255.1 billion. This deficiency was mainly due to shortage in: PAYE of \$2.7 billion, taxes on dividends of \$1.0 billion and taxes on international trade of \$5.7 billion.

Economic Bulletin Page 2 JAN 2014

# Net International Reserves (NIR)

During January 2014, Net International Reserves decreased by US\$130.06 million from US\$ 1047.53 million in December 2013, to US\$917.77 million at the end of January 2014. This represents a 12% decrease when compared to December. This 12% month over month decrease, was mostly due to a 7% fall in Foreign Assets. Year to date, the NIR is up by US\$135.03 million, which is approximately 13% of the US\$1,052.80 billion in December 2013.

At the end of December 2013, gross reserves were adequate to finance 12.64 weeks of "goods and services" imports, (16.78 weeks of 'goods' imports).

### Foreign Currency Deposits

At the end of September 2013, Foreign Currency Deposits (FCD's) in the local financial system stood at US\$3.15 billion—an decrease of US\$19.63 million or 0.62%, over the previous month. Year to date, FCD's are up about US\$626.21 million. This continues the build-up from 2012 when FCD's were increasing despite the bleeding of NIR. This build-up in FCD's is likely due to the tendency to hold hard currency in times of uncertainty, underlining the importance of confidence for growth.

# Foreign Exchange Rate

US DOLLAR: During January 2014, depreciation of the Jamaican dollar continued at the rate of 1.29% (J\$1.37), moving to J\$107.75, when compared to J\$106.38 at the end of December 2013. This was a devaluation when compared to the decline of J\$1.16 during Dec 2012- Jan 2013, and J\$0.23 in Dec 2011-Jan 2012; implying the continued demand for US dollar.

#### POUND & CANADIAN DOLLAR:

In January 2014, the J\$ depreciated by J\$1.59 against the GBP, and appreciated by J\$3.59 against the CAD reaching lows of J\$177.29 and J\$96.13 respectively. Year to date, the J\$ is down

#### **Interest Rates**

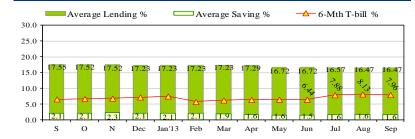

During September 2013, the Bank of Jamaica continued its open market liquidity management operations to mopup Jamaican dollar liquidity in order to reduce pressure on the Jamaican dollar exchange rate and/or to support the net international reserves.

In Sept 2013, the BOJ issued two certificates of deposit - a 237 day CD at 7.65% and a 364-day CD at 7.65%. These were followed in October 2013 by four (4) issuances ranging in maturities from 272-days to 48 months, all with initial coupons of 7.42%. In total, since the beginning of calendar year 2013, the BOJ has made 42 issuances, 26 of which have occurred since the start of FY2013/14.

The BOJ has resumed issuing longer tenors (above the 30-day) at much lower interest rates than the double digit rates of the previous two decades. To test whether its two year long efforts (begun in Jan 2010) of recalibrating Jamaica's interest rates at lower sustainable levels has taken hold.

But, as mentioned previously, though BOJ rates appear to be stabilizing in Oct 2013, an examination of the interest rate trend since the start of FY2013/14 shows that the BOJ is experiencing difficulty keeping interest rates at sustainable levels - (generally regarded as below 7.0%). Since April 2013, the interest rate on the 180-days CD has increased from 5.97% to 7.49% in August 2013. The rate on the 365-day CD increased from 6.85% in June 2013 to 7.65% in September 2013, falling back to 7.42% in Oct 2013. In addition, the rate on the 18-month CD has increased from 6.07% in April 2013 to 7.37% at last issue in July 2013. The rate on the MOF 6-month T-Bill has also seemingly reversed a 2-year downtrend increasing from 6.44% in June 2013 to 8.13% in August 2013, though falling back by 17 bps in September 2013.

It is important to note that short term rates are above long term rates, implying that there is still a certain level of uncertainty about the future, as reflected in the inversion of the yield curve.. Therefore although confidence seems to be improving people are still cautious.

# Base Money & Money Supply

During November 2013, M1 decreased by 2.85% to J\$128,395.52 million due to a J\$3,769.02 million

decrease in currency with the public.

Quasi money for its part increased by 0.8% to J\$ 277,800.33million. Given the change in both components -Quasi money and M1 - broad money (M2) decreased by 0.39% to J\$406,195.86 million during November 2013 compared to J\$407,768.95 million the previous month.

In January 2014, the monetary base decreased by 9.47% to J\$93,821.09 million. Furthermore, the money supply increased by approximately 5.93% over January 2013, which may have been as a result of the shopping season.

Economic Bulletin Page 4 JAN 2014

#### Inflation

At the start of the calendar year, January 2014, the inflation rate was 0.5%, This was 0.2% less than the 0.7% for January 2013. In addition, the fiscal year to date (April 2013—January 2014) rate was 7.9%.

The division which had the largest increase for the month, January 2014 was Furnishings, Household Equipment and Routine Household Maintenance' which had the highest increase of 2.9% which was due mainly to rise of approximately 12% in the National Minimum Wage which took effect on January 6, 2014.

The highest weighted division was 'Food and Non-Alcoholic Beverages' which had a 0.4% increase as lower prices were paid for vegetables and starchy foods.

The 'Transport' division went up by 0.1% and 'Housing, Water, Electricity, Gas and other fuels' increased by 0.7%.

Additionally; 'Miscellaneous goods and Services' increased by 0.7%, 'Restaurants and Accommodation Services' went up by 0.5%. 'Clothing and Footwear' increased by 0.2%, 'Alcoholic Beverages and Tobacco' and 'Recreation and Culture' both rose by 0.1% and 'Health' increased by 0.3%. However, there was no significant movement recorded for 'Education' and 'Communication' for the month.

For all the three areas, there was an upward movement in the regional index: Greater Kingston Metropolitan Area (GKMA) with 0.6%, Other Urban Centres (OUC) 0.4% and Rural Areas, 0.5%.

#### **Bauxite & Alumina**

The soft conditions in the global economy during 2012 resulted in Jamaica's production of alumina falling by 10.86% to 1,602,346 tons compared to 1,797,614 tons during 2011. Production of crude bauxite was also down 6.69% to 4,354,336

million tons relative to 4,666,763 million tons during 2011.

For Jan-Nov 2013, alumina production is up 5.2% to 1,685,440 tons compared to 1,602,346 tons during the corresponding period of 2012. Production of crude bauxite is down slightly however, by 2.9% to 3,894,884 tons relative to 4,227,371 tons during the corresponding eleven month period of 2012.

#### **Tourism**

For December 2013, stopover arrivals were 201,347 - an increase of 4.8% compared to the 192,158 stopovers recorded in December 2012. Additionally,

the number of cruise passengers increased by 9.6% in December 2013, to 160,076 visitors, compared to the previous 146,050 recorded in December 2012.

Regionally, stopovers from the US market grew by 4.2% in December 2013 with a total of 118,299 arrivals compared to 113,530 in December 2012. For the Jan –Dec period of 2013, stopovers from the US recorded an increase of 1.1% with 1,271,262 visitors compared to 1,257,669 visitors during Jan-Dec 2012.

From the Canadian market, stopovers increased by 5.3% during Dec 2013 with 49,515 arrivals compared to

47,007 in Dec 2012.

The European market recorded an increase of 11.1% in December 2013 with 24,001 stopover arrivals which is a 2,404 increase compared to the 21,597 recorded in December 2012. For Jan-Dec 2013, stopover visitors from Europe are up 6% to 235,811, compared to 222,428 during the corresponding period of 2012.

Stopover arrivals from the Caribbean fell by 6.8% in December 2013 with a total of 5,961 visitors compared to 6,399 in December 2012. The Cayman Islands and Trinidad & Tobago remains the major visitor producing territories in December 2013 with 1,789 and 874 stopover arrivals respectively. Cumulatively, stopovers for the January to December 2013 period fell by 10.4% moving from 64,984 in 2012 to 58,249 in 2013. This amount shows a decrease of 12% over 66,216 stopovers in the year 2011.

Additionally, it is seen where stopover arrivals from Latin America rose by 4.1%, moving to 2,201, in December 2013 compared to that of 2,114 in December 2012. From the Central American region, stopovers rose by 19.5% with 669 arrivals, and from the South American region stopovers fell by 1.4% with 1,532 arrivals.

In December 2013, a total of 160,076 cruise passengers visited Jamaica and this represented a 9.6% increase over the 146,050 for December 2012. Additionally, cruise passengers visiting the Falmouth port grew by 7.5%, with those visiting the Ocho Rios Port up by 2.6% and those visiting the port of Montego Bay falling by 29.1%, implying some amount of cannibalisation.

Total Visitors (stopover and cruise arrivals) to Jamaica during Jan-Dec 2013 period were 3,278,024 registered a 1.8% decline compared to 3,337,957 visitors

during Jan-Dec 2012

#### External Trade

During the period January to September, total expenditure on Merchandise imports for 2013 was valued at J\$457,192.53 million, compared to J\$436,429.67 million in the similar 2012 period, signifying a 4.8% increase. During the period under review, total export earnings went up to J\$112,076.72 million, a 5.3% increase. The trade deficit during January to September 2013 was valued at J\$345,117.81 million, as compared to J\$330,041.37 million in the same period for 2012, which is an indication that the trade deficit increased by J\$15,074.44 million or 4.6%.

During the 2013 period, merchandise imports from the United States of America valued US\$1,330.2 million, compared to US\$1,488.8 million in the 2012 period. In the 2013 period, goods from this country represented 32.2% of Jamaica's total import bill, compared to 33.4% for the corresponding 2012 period.

Conversely, total exports to the USA were valued at US\$545.3 million, or 49.7% of the total exports of all goods from Jamaica. At the end of the 2013 review period, the trade deficit with this

country moved down from US\$996.8 million (in 2012) to US\$784.9 million.

#### Imports

Generally, there was an improvement in the value of imports for most of the commodity groups.

"Mineral Fuels, etcetera" accounted for J\$162,553.25 million, the highest value for this period. However this commodity fell by J\$5,459.43 million (3.2%) from the corresponding period in 2012. "Misc. Manufactured Articles" increased by J\$1,054.95 million or 3.5%.

"Food", one of the leading imports, showed an increase when compared to the 2012 period, rising by J\$9,324 million, or 14.8%, valuing J\$72,186.95 million. This commodity was the second highest valued import for the 2013 review period due to increased importation of 'cereal & cereal preparations', 'vegetables & fruit preparations'., and 'miscellaneous edible products and preparations". The commodity group "Chemicals" increased by J\$6,555.56 million or 12.1%, valuing J\$60,554.05 million, as compared to the J\$53,998.49 million recorded in the similar 2012 period.

#### **Traditional Domestic Exports**

During the period January to September 2013, earnings from major tradi-

tional commodities increased by 2.9% (J\$1,658.24 million) when compared to that same period in 2012. This was as a result of increase in exports of "Manufactured" goods. Exports from "Mining and quarrying" increased to J\$47,095 million, by a factor of 9.4%, as a result of surges in 'Alumina' and 'Bauxite'. Receipts from 'Alumina' moved up by 9.1% (J\$3,138.24 million) from J\$34,422.57.3 million in the 2012 period to J\$37,560.81 million in the current review period. In the 2013 period, earnings from 'Bauxite' moved up marginally to J\$9,534.38 million, a factor of 10.8%. The "Agriculture" sector saw receipts increasing from J\$1,527.91 million, in the 2012 period, to J\$1,939.77 million during the 2013 period under review. "Coffee" recorded a decrease of 21.7% to J\$220.84 million. Also increasing, "Citrus" gained US\$3.1 million, rising by 99.0%, from the US\$1.5 million earned over the corresponding 2012 period. However, "Cocoa" and "Pimento" declined by factors of 72.5% and 26.5%, from the January to August 2013 period, to earn US\$0.3 million and US\$0.5 million respectively.

Non-traditional exports increased by a factor of 8.1%, or J\$4,030.19 million, from the similar period in 2012, to a value of J\$53,736.54 million. The subcommodity 'Alcoholic beverages (excluding rum), proved to be the reason for this increase, moving from J\$3,568.24 million to J\$3,768.04(an increase of 5.6%) in the current review period of January to September 2013.

#### **CARICOM**

During the January to August 2013 period, goods imported from the Caribbean Common Market decreased by US\$80.3 million to US\$599.2 million when compared to the US\$679.5 million spent in the corresponding 2012 period, a factor of 11.8%. The main contributor to this overall decline was caused by "Mineral Fuels, etcetera", with expenditure on this commodity falling by US\$90.8 million US\$403.4 million during January to August 2013. "Food" moved from a value of US\$103.4 million in January -August 2012, to US\$116.8 million in the corresponding period in 2013. Imports of "Beverages and Tobacco" and "Chemicals" valued US\$27.6 million and US\$17.4 million respectively in the period currently under review. This is comparable to values of US\$26.4 million and US\$19.8 million respectively for the similar period in 2012.

Source: STATIN Jamaica

Jamaica's total export value of goods to CARICOM fell marginally by 1.9% or US\$0.9 million, to a value of US\$44.2 million from January to August 2013. Domestic exports accounted for majority of the total value – US\$37.3 million. This value declined from US\$37.8 million for the corresponding period in 2012. The main group exported was

"Food", increasing in value by US\$1.4 million, to US\$21.6 million. "Misc. Manufactured Articles" recorded a fall of 12.4% from US\$3.0 million earned in the comparable 2012 review period, to US\$2.6 million. "Beverages & Tobacco" increased by 20.4% to US\$6.8 million, but re-exports fell by US\$0.4 million to a value of US\$6.9 million.

During this eight month period (January to August 2013), a trade deficit of US\$555.0 million was recorded with CARICOM, down from the US\$634.4 million recorded for the same period in 2012. The trade deficit therefore narrowed by US\$79.4 million or 12.5%.

#### Balance of Payments

During 2013, there was a current account deficit of US\$997.2 million, which represented an improvement of US\$400.9 million relative to the corresponding period in 2012. The improvement in the Current Account emanated from all sub-accounts.

During the period, the **Goods balance** recorded a deficit of US\$2,917.6 million, an improvement of US\$243.6 million when compared to 2012. This resulted primarily from a decrease of US\$305.1 million in imports, with a small decrease of US\$ 61.5 million in exports.

In relation to the **Services sub-account,** there was an increase of US\$33 million in its surplus position. This resulted primarily from an increase of US\$36.7 million in Transportation and Other Business Services inflows and a reduction of US\$3.6 million in Travelling outflows.

The Income sub-account improved by US\$43 million for the review year, emanating primarily from an increase of US\$79.6 in Investment Income and a decrease of US\$36.5 million in Compensation of employees.

During 2013 **Current Transfers** increased by US\$\$1.3 million to US\$1608.3 million, relative to 2012. This improvement resulted primarily from an increase of both Official and Private flows of US\$35.1 million and US\$46.2 million respectively.

#### Fiscal Accounts

During the first eight months (April to Dec) of fiscal year 2013/14, the Government of Jamaica ran a fiscal deficit of J\$19.62 billion. This fiscal deficit was J\$5.16 billion or 20.8% better than the J\$24.78 billion budgeted and J\$27.57 billion better than the deficit recorded during April-Dec 2012.

REVENUE: Total Revenues & Grants to the GOJ during April-Dec 2013 was J\$274.62 billion. This was J\$10.93 billion or 3.8% less than the J\$285.55 billion budgeted but J\$34.19 billion or 14.2% greater than Revenues and Grants collected during April-Dec 2012. Tax revenue of J\$242.65 billion though J\$12.51 billion less than the J\$255.16 billion budgeted was also well in excess of the J\$150.0 billion targeted under the GOJ/IMF Agreement.

**EXPENDITURE:** During Apr-Dec 2013, total expenditure was J\$294.23 billion. As noted, this was J\$16.09 billion or 5.2% less than the J\$310.33 billion budgeted, but was J\$6,616 million or 2.3% more than expenditure during Apr- Dec 2012.

Under pressure to meet the fiscal and primary surplus targets under the IMF Agreement, the GOJ has been running a tight ship making significant expenditure curtailments from already tight budgetary allocations. The largest saving of J\$4.38 billion, or 8.5%, which was achieved on 'Domestic Interest' with J\$46.98 billion spent relative to J\$51.36 billion budgeted. 'External Interest' payment however decreased by J\$695.20 million (2%) with J\$34.32 billion spent relative to the J\$35.02 billion budgeted.

In addition, there was a significant 1% curtailment of outlays on 'Recurrent Programmes' with J\$69.16 billion spent compared to J\$69.89 billion budgeted. There was also a J\$1.23 billion reduction in outlays on 'Wages and Salaries' with J\$119.79 billion disbursed compared to J\$121.01 billion budgeted. Though in the past, to meet fiscal targets, the GOJ has massively curtailed Capital Expenditure, for the first eight months of FY2013/14, the curtailment has been significant (27.4%), rather than massive, with CapEx amounting to J\$23.98 billion compared to the J\$33.04 budgeted.

#### FISCAL OUTTURN

The fiscal deficit for FY2012/13 (Apr 2012 to Mar 2013) was J\$52.97 billion. For FY2013/14, the GOJ is projecting a fiscal deficit of J\$8.045 billion or 0.5% of GDP. The J\$19.62 billion deficit for April-Dec 2013, relative to J\$24.78 billion budgeted for, therefore seems to be moving in the right direction despite the pace at which it is moving.

#### The Primary Surplus

- a measure of the country's ability to service its debt from revenues, was J\$72.34 billion in 2012/13 or about 6% of GDP. For FY2013/14, the GOJ is

projecting a primary surplus of J\$111.52 billion or 9.5% of GDP. For April-Dec 2013, the primary balance was J\$61.69 billion which exceeded the J\$61.60 billion projected under the GOJ/IMF Agreement.

#### Stock Market

During January 2014, market capitalization decreased by J\$52.65 billion or 10.70% to close at J\$439.53 billion. Regarding the JSE indices; four advanced and one declined.

The main **JSE Market Index** advanced by 1,754.26 points or 2.13% to close at 82,387 points. The **JSE Combined Index** advanced by 1,869.19 points or 2.20% to

close at 84,804.14 points. The **JSE US Equities** advanced by 21.43 points, or 18.75%, to close at 114.29 points. The **JSE Cross Listed Index** declined by 15.94 points or 2.20% to close at 724.34 points; and, the **Junior Market Index** advanced by 26.62 points or 3.39%, to close at 784.48 points.

Market volume was relatively high in January 2014 with 150 million units valued at J\$1.087 billion compared to 203 million units valued at J\$2.688 billion in December 2013.

Overall market activity resulted from trading in 36 stocks of which 20 advanced, 9 declined and 7 traded firm. Jamaica Money Market Brokers Ltd with 65.31 million units or 43.58% of market volume was the volume leader; followed by LIME with 34.13 million units or 22.78% of market volume; while Supreme Ventures Limited was third with 9.89 million units or 6.60% of market volume.

The leading advancers in January 2014 were: LIME; Caribbean Cement Company Ltd; Hardware & Lumber; Hardware & Lumber; Sagicor Investments Ja; Radio Jamaica. The leading decliners were Supreme Ventures; Pan Jamaican Investment Trust; Carreras Ltd; First Caribbean Int'l Bank; Jamaica Producers Group.

## **Economic Highlights**

contd. from page 1.)

To compensate for this total shortfall in revenue, the government curtailed recurrent expenditure by an estimated \$7.0 billion and capital expenditure by approximately \$9.1 billion. Although this is a commendable approach towards fiscal governance, there is still some concern about the end Source: Jamaica Stock Exchange (Online Database) and PSOJ of the final quarter that is approaching; since March 2014 is the period when a \$50 billion increase in the primary balance will be required to meet the targeted amount of \$111.5 billion.

There has been some assurance from the Financial Secretary, Devon Rowe, that the measures which were implemented in November 2013 are beginning to manifest positive results as illustrated by preliminary tax collection numbers for January 2014, from the Tax Authority of Jamaica (TAJ) and Jamaica Customs.

The Economic Programme Oversight Committee (EPOC) has been encouraging authorities to remain attentive with all economic affairs, because if the challenging March 2014 targets are met, there will be increased confidence in the Jamaican economy by both the local and international communities.

Furthermore, it is seen that there are still challenges with the levels of liquidity in our financial system. Regardless of the recent introduction of liquidity facilities by the Bank of Jamaica, there remains continuous challenges with the Jamaican dollar liquidity, as indicated by the climb in marketdetermined short term Jamaican dollar interest rates. The assembly of many factors has held to this position: limited trading of local Jamaican dollar bonds, introduction of Central Treasury Management System (CTMS); fiscal consolidation and BOJ open market operations.

As it relates to the pressure on liquidity, and the slowly improving demand in the economy,

Source:: Compiled from the JSE								

it has been noted by the EPOC that up until December, credit to the private sector was growing slower than what was arranged.

It is understood that the Bank of Jamaica is discussing with the Banking Sector how to create more solutions to support the ability of the banking system to increase the volume of lending to the private sector. This is essential, given that simple access to credit has an affirmative effect on economic growth. Consequently, both the BOJ and the Banking Sector are being prompted to address this matter as soon as possible.

In February 2014, the GOJ has two substantial bond maturities of approximately US\$280 million and J\$5.4 billion. The GOJ pointed out that they have adequate funding for their operations and will therefore pay their maturities with no trouble. This will definitely put significant liquidity into both the US and Jamaican dollar markets.

The reform schedule for this final quarter (ending March 2014) is very demanding and involves many crucial legislative initiatives. These

- Adoption of a fiscal rule.
- Broader tax reform including modernization of income tax, customs tariff and social security; removal of zero rating for GCT on many goods and establish an initial and prudent reduction in personal tax rates; an Omnibus Banking Law to harmonize prudential standards across all deposit takers and strengthen the corrective power of the BOJ.

In concluding, it is exceedingly satisfying that all arrangements have been going in a positive direction, where key targets have been met to date. The March 2014 target is a very critical one to achieve, as this will serve as a much needed confidence booster.

The Economic Bulletin is a monthly synopsis of the major developments impacting the Jamaican economy. It covers a wide range of areas including inflation, the financial markets, fiscal accounts, tourism, the productive sectors and external trade. In addition to tracking changes in the main indicators, it also goes behind the numbers to examine the underlying factors driving those changes. The Bulletin also provides insight into how current trends may shape developments going forward in order to help inform your business decisions.
